

Alumni – Chantelle Loko

I left Wodensborough Academy in 2018 and was successful in my GCSE outcomes.

I was also selected to represent **OAT Academies Trust & be part of the OAT Alumni– watch my video below!**

This gave me the confidence to move onto higher education where I have been successful in achieving a degree in Psychology.

Being part of the **WOA Alumni** has helped me to stay connected with Wodensborough. I am now employed there as an SEMH intervention coach to gain the employability skills I need to get to my next steps which is becoming a fully training **cognitive behavioural therapist**

National Careers Week 2022 & OAT Alumni

Leaving Wodensborough Academy has led me to pursue **qualifications** in Health and Social Care which enabled me to pursue a **Degree in Psychology at University of Leicester**.

This ignited my passion for mental health and drove me to pursue a **Masters Degree in Mental Health** (Interdisciplinary) at the **University of Birmingham**. While studying I pursued an **Internship with NHSE** with the clinical improvement team and independently completed the Prevention of future deaths annual thematic review. Additionally, I **Volunteered at Kaleidoscope** supporting and educating carers as well as supporting the suicide and bereavement team.

To gain further experience I am now employed as an SEMH intervention coach back at my secondary school – Wodensborough Academy.

My ‘future self’ wants to become a fully training cognitive behavioural therapist!
